

## How long has the Company Been in Business?

### 1) How long has the company been in Business?

-This is important because some companies say they have 30 years experience but may only be in business for 1 year. This company is telling the truth but the information is misleading.

-A company that has been in business for 30 years has a proven track record. They have been around through good and tough times and will be there to support you if there are any issues.

What to look for in a solid Asphalt Paving Contractor

-In Business since.....

-A company that has used the same company name for 30 years

-A company that provides an office location and not a PO box.

This tells the consumer that we have been around for a long time, you can find us, and we will continue to support you.
